

Student Opportunities

in the U.S. Public Health Service Commissioned Corps

➤ About the Commissioned Corps

The U.S. Public Health Service Commissioned Corps protects, promotes, and advances the health and safety of the Nation. With more than 6,000 officers, the Commissioned Corps is one of the Nation's seven uniformed services and resides in the U.S. Department of Health and Human Services. As the world's foremost public health service, the Corps is composed entirely of officers who have been commissioned on the basis of their health-related training.

Commissioned officers deliver ongoing health promotion and disease prevention programs and are called on to provide onsite clinical and public health expertise in times of national emergencies and disasters. A career in the Commissioned Corps offers unlimited opportunities to serve your country while improving the quality of people's lives and making a real difference in public health.

➤ Student Programs

The Commissioned Corps offers opportunities for students to serve their country while completing their education. If you are interested in a public health career, we encourage you to apply to the **Junior Commissioned Officer Student Training and Extern Program (JRCOSTEP)** or the **Senior Commissioned Officer Student Training and Extern Program (SRCOSTEP)**. Both programs offer excellent benefits and are highly competitive.

JRCOSTEP allows students to gain valuable professional experience with the Commissioned Corps early in their education. JRCOSTEP is available to students

who have completed at least 1 year of study in medical, dental, or veterinary school or at least 2 years of study in a professionally accredited baccalaureate program in specific health disciplines. JRCOSTEP assignments are located throughout the country, and participants work during their official academic breaks for periods of 31 to 120 days. These assignments occur in three rotations throughout the year—summer (May 1–August 31), spring (January 1–April 30), and fall (September 1–December 31)—with most occurring during the summer. JRCOSTEP participants do not have an obligation to serve in the Commissioned Corps after graduation.

Selections Process: There are no deadlines for JRCOSTEP applications.

SRCOSTEP is a competitive program designed to assist students financially during their final academic year of professional health care training. In return, these students agree to work for the Commissioned Corps after graduation for twice the time sponsored. SRCOSTEP positions are available to individuals who are enrolled as full-time students in several disciplines, including dentistry, nursing, pharmacy, engineering, and physical or occupational therapy. Students must have at least 8 months of educational commitment remaining in the final year to be eligible for SRCOSTEP.

Selections Process: SRCOSTEP applications are due by December 31 for applicants whose final school year begins in the fall of the following year. Applications received after December 31 will be processed on a case-by-case basis.

➤ Pay

Participants in JRCOSTEP or SRCOSTEP receive the basic pay and allowances of an O-1 officer, with the rank of ensign. If they have at least 4 years plus 1 day of prior military experience, they are paid at the O-1E level.

Upon completion of their assignments, JRCOSTEP participants become inactive reserve members in the Commissioned Corps and have the opportunity to activate at a later time.

Upon graduation, SRCOSTEP participants are promoted to the rank of lieutenant junior grade (O-2) or lieutenant (O-3) depending upon their degree. **Note:** Nursing students must pass the NCLEX exam prior to being promoted to O-2.

➤ Benefits

JRCOSTEP participants are entitled to limited rights, benefits, and privileges accorded to Corps officers serving on extended active duty.

SRCOSTEP participants receive the same generous benefits as general duty officers in the Commissioned Corps. Benefits include:

- Health care and dental care at no cost
- Thirty days of paid vacation per year
- Paid sick leave
- Paid maternity leave
- Malpractice insurance coverage
- A retirement plan with benefits eligibility beginning after 20 years of service

Many additional benefits are listed at www.usphs.gov. Officers in the Commissioned Corps have opportunities for mobility among government agencies and career advancement in diverse work settings, allowing for varied experiences and promotions. The Commissioned Corps encourages you to expand your knowledge base and grow professionally so that you can effectively deal with the challenges of improving public health. Tuition and long-term training opportunities may be available.

➤ Join America's Public Health Team

If you are interested in joining the fight for public health, or if you have questions about what we do and how you can make a difference with the Commissioned Corps, we would like to talk to you. For more information, call us at 800-279-1605 or visit our Web site at www.usphs.gov.

To apply, click on "Apply Now" and download the application forms. Be certain to indicate which student program you are applying to on the PHS-50 form, item #6.
